CENTERING RING ALIGNER TOOLS (5PK)

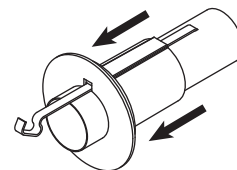

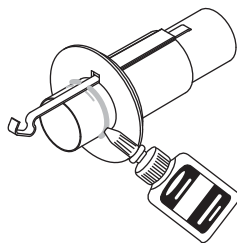

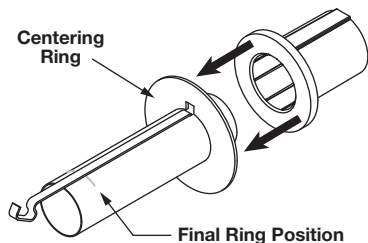

3139

AGES
10+

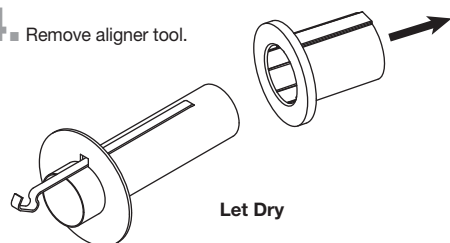

HOW TO USE:

1. Place centering ring on end of engine mount tube. Use aligner tool to push centering ring about one quarter inch before final ring position.
2. Apply a thin bead of glue right behind the final position of the centering ring.
3. Using the aligner tool, slide centering ring forward to final ring position.

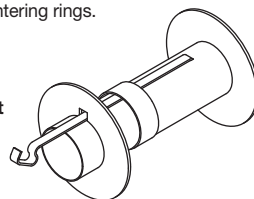

4. Remove aligner tool.

5. Once all glue joints have set, apply a glue fillet to both sides of centering rings.

Completed Engine Mount

CAUTION:

For safe handling of plastic cement, epoxy, spray adhesive, CA glue, CA accelerator, see manufacturer's warnings and follow instructions for use.

TOOL USES:
