

GAMMA

SKILL LEVEL 1 – Recommended for Beginner Rocketeers

Read all instructions before beginning work on your model. Make sure you have all parts and materials. When you are thoroughly familiar with the assembly procedure, begin construction. Check off each step as you complete it. In each step, test-fit the parts together before applying any glue. If some part doesn't fit properly, sand lightly or build up as needed for precision assembly.

PARTS LIST KIT 1325

A	1	Engine Mount Tube (type BT-20J) 2-3/4" ..	30326
B	1	Engine Hook (type EH-2)	35025
C	1	Retainer Ring (type HR-20)	30168
D	1	Split Adapter Ring (type AR-2050S)	80425
E	1	Adapter Ring (type AR-2050)	30164
F	1	*Pattern Sheet	82632
G	1	Rocket Body Tube (type BT-50EE) 5-1/2" ..	30358
H	1	Launch Lug (type LL-2B) 2-3/8"	38178
I	1	Die-Cut Balsa Fin Sheet (type BF-1325) ...	32253
J	1	Body Coupler (type JT-50C)	30260
K	1	Rocket Body Tube (type BT-50W) 9-1/2" ..	30372
L	1	Shock Cord (type SC-1) 1/8" x 18"	85730
M	1	Plastic Nose Cone (type PNC-50Y)	71009
N	1	Parachute (type PK-12A)	85564
O	1	Shroud Line Cord (type SLT-72) 72"	38237
P	1	Set of Six Tape Discs (type TD-3F)	38406
Q	1	Decal (type KD-1325)	37502

*Included in kit, but not illustrated.

TOOLS AND MATERIALS

In addition to the parts included in this kit you will need an X-Acto type modeling knife (or a single edge razor blade), white glue, (Elmer's or similar household white glue. Titebond white glue is especially recommended because it can be sanded when dry), scissors, pencil, fine and extra-fine grit sandpaper, sanding sealer, masking tape and a medium-size modeling paint brush. To paint your model we recommend gloss white and gloss black enamel spray paint.

POSITION RED DECAL STRIPE 1/8" FROM FIN TIP
