

1725 - Eng #4 1928 -

FALCON COMMANDER

SKILL LEVEL 1 - Recommended for Beginning Rocketeers

BEFORE YOU START

Read all instructions before beginning construction on your model. Make sure you have all parts and materials. When you are thoroughly familiar with the assembly procedure, begin construction. Check off each step as you complete it. In each step, test-fit the parts together before applying any glue. If some part doesn't fit properly, sand lightly or build up as required for precision assembly.
