PARTS LIST KIT NO. 1930

A	1	Engine Tube (type BT-50J)	30362
B	1	Engine Holder (EH-2)	35025
C	1	Engine Block (AR-2050)	30164
D	2	Adapter Rings (AR-5055)	30166
E	1	Body Tube (type BT-55W)	30391
F	1	Body Tube Marking Guide	(on page 1)
G	1	Shock Cord Mount	(on page 1)
H	1	Shock Cord (type SC-2)	85736
I	1	Balsa Die-Cut Fin Sheet (BF-1930)	32630
J	1	Launch Lug (type LL-2B)	38178
K	1	Plastic Nose Cone (type PNC-55D)	71038
L	1	Plastic Streamer (type RS-20)	38278
M	1	Foil Wrap (type 1930)	83712
N	1	Decal (type KD-1930)	37245

BEFORE YOU START

Read each step and study the accompanying drawings before doing any of the work called for in that step. Make sure you have all parts and materials. Check off each step as you complete it. Always test-fit parts together before applying glue. It will sometimes be necessary to sand edges of rings, tubes, etc. to obtain proper fit. If you are in doubt about the relative size or location of some parts, refer back to this exploded view drawing for clarification. Adequate glue joints are very important for a flying model rocket. Follow the instructions carefully in this regard.

TOOLS AND MATERIALS

In addition to the parts included in this kit you will need: Scissors, pencil, ruler, fine or extra-fine grit sandpaper, sanding sealer, a medium-size modeling paint brush, modeling knife with sharp blade, gloss white and gloss yellow enamel spray paint, Testor's Gloss Cote, and household white glue or resin glue (Elmer's, Titebond, or similar). Other types of glue or cement are not recommended.

For easy and positive alignment of the fins on your model, we recommend the use of Estes' Fin Alignment Guide, Part No. 2231.
